100 Years of Women's Suffrage

commemorates the centennial of the Nineteenth Amendment by bringing together essential scholarship on the suffrage movement and women's voting previously published by the University of Illinois Press. With an original introduction by Nancy A. Hewitt, the selections illuminate the lives and work of key figures while uncovering the endeavors of all women—across lines of gender, race, class, religion, and ethnicity—to gain, and use, the vote. Beginning with works that focus on cultural and political suffrage battles, the chapters then look past 1920 to look at how women won, wielded, and continue to fight for access to the ballot. A curation of important scholarship on a pivotal historical moment, *100 Years of Women's Suffrage* captures the complex and enduring struggle for fair and equal voting rights.

A War Born Family

African American Adoption in the Wake of the Korean War

KORI A. GRAVES

January 2020 328pp

9781479872329 £39.00 / \$45.00 HB

NEW YORK UNIVERSITY PRESS

The Korean War left hundreds of thousands of children in dire circumstances, but the first large-scale transnational adoption efforts involved the children of American soldiers and Korean women. Korean laws and traditions stipulated that citizenship and status passed from father to child, which made the children of US soldiers legally stateless. Korean-black children faced additional hardships because of Korean beliefs about racial purity, and the segregation that structured African American soldiers' lives in the military and throughout US society. The African American families who tried to adopt Korean-black children also faced and challenged discrimination in the child welfare agencies that arranged adoptions. Drawing on extensive research in black newspapers and magazines, interviews with African American soldiers, and case notes about African American adoptive families, *A War Born Family* demonstrates how the Cold War and the struggle for civil rights led child welfare agencies to reevaluate African American men and women as suitable adoptive parents, advancing the cause of Korean transnational adoption.

Since his death, Abraham Lincoln has been celebrated as savior of the Union, proponent for emancipation, president of the United States, and skilled statesman. Although Lincoln's adult life has been well documented and analyzed, most biographers have regarded his early years as inconsequential to his career and accomplishments. In 1920 a group of historians known as the Lincoln Inquiry were determined to give Lincoln's formative years their due. *Abe's Youth* takes a look into their writings, which focus on Lincoln's life between 7 and 21 years of age. By filling in the gaps on Lincoln's childhood, these authors shed light on how his experiences growing up influenced the man he became. As the first fully annotated edition of the Lincoln Inquiry papers, *Abe's Youth* offers indispensable reading for anyone hoping to learn about Lincoln's early life.

American Fatherhood

A History

TRANSLATED BY PETRA GOEDDE

December 2019 352pp

9781479892273 £39.00 / \$45.00 HB

NEW YORK UNIVERSITY PRESS

The nuclear family has been endlessly praised as the bedrock of American society, even though there has rarely been a time in history when a majority of Americans lived in such families. This book deconstructs the myth of the nuclear family by presenting the rich diversity of family lives in American history from the American Revolution to the twenty-first century. To tell this story, Jürgen Martschukat focuses on fathers and their relations to families and American society. Using biographical close-ups of twelve different characters, each embedded in historical context, *American Fatherhood* provides a much more realistic picture of how fatherhood has been performed within different kinds of families. Each protagonist covers a crucial period or event in American history, presents a different family constellation, and makes a different argument with regard to how American society is governed through the family.
