## 10% Less Democracy

Why You Should Trust Elites a Little More and the Masses a Little Less

**GARETT JONES**

February 2020 208pp

9781503603578 £22.99 / \$28.00 HB

STANFORD UNIVERSITY PRESS

During the 2016 presidential election, both Donald Trump and Bernie Sanders argued that elites were hurting the economy. But, drawing together evidence and theory from across economics, political science, and even finance, Garrett Jones says otherwise. In *10% Less Democracy*, he makes the case that the richest, most democratic nations would be better off if they slightly reduced accountability to the voting public, turning up the dial on elite influence. To do this, Jones builds on three foundational lines of evidence in areas where he has personal experience. Discerning repeated patterns, Jones draws out practical suggestions for fine-tuning, focusing on the length of political terms, the independence of government agencies, the weight that voting systems give to the more-educated, and the value of listening more closely to a group of farsighted stakeholders with real skin in the game—a nation's sovereign bondholders. Accessible to political news junkies while firmly rooted and rigorous, *10% Less Democracy* will fuel the national conversation about what optimal government looks like.

## After Nationalism

**SAMUEL GOLDMAN**

Radical Conservatism

February 2020 208pp

9780812251647 £20.99 / \$24.95 HB

UNIVERSITY OF PENNSYLVANIA PRESS

Nationalism is on the rise across the Western world, serving as a rallying cry for voters angry at the unacknowledged failures of the consensus in favor of globalization that has dominated politics and economics since the end of the Cold War. In *After Nationalism*, Samuel Goldman trains a sympathetic but skeptical eye on the trend, highlighting the deep challenges that face any contemporary effort to revive social cohesion at the national level. Goldman points to three pillars of mid-twentieth-century nationalism, all of which are absent today: coercive Americanization, total mobilization for war, and widespread religious faith. Most of today's nationalists fail to recognize these necessary underpinnings of any renewed nationalism, or the potentially troubling activities and consequences that they would engender (including extensive state activism in Americanization efforts and the massive growth of government that tends to accompany military mobilization). For that reason, Goldman concludes, those worried about the need for social cohesion should move in the opposite direction—toward support for political projects grounded in local communities.

## Warlord Survival

The Delusion of State Building in Afghanistan

**ROMAIN MALEJACQ**

January 2020 264pp 10 b&w halftones, 2 maps

9781501746420 £34.00 / \$39.95 HB

CORNELL UNIVERSITY PRESS

Drawing on hundreds of in-depth interviews in Afghanistan between 2007 and 2018, Romain Malejacq provides a full investigation of how warlords adapt and explains why weak states like Afghanistan allow it to happen. Malejacq follows the careers of four warlords in Herat, Sheberghan, and Panjshir. He shows how they have successfully negotiated complicated political environments to survive ever since the beginning of the Soviet-Afghan war. The picture he paints in *Warlord Survival* is one of astute political entrepreneurs with a proven ability to organize violence. Warlords exert authority through a process in which they combine, instrumentalize, and convert different forms of power to prevent the emergence of a strong, centralized state. But, as Malejacq shows, the personal relationships and networks fundamental to the authority of these four warlords are not necessarily contrary to bureaucratic state authority. In fact, they, and others like them, offer durable and flexible forms of power in unstable, violent countries.

## Necropolitics

**ACHILLE MBEMBE**

Theory in Forms

October 2019 232pp

9781478006510 £22.99 / \$25.95 PB

9781478005858 £88.00 / \$99.95 HB

DUKE UNIVERSITY PRESS

In *Necropolitics* Achille Mbembe theorizes the genealogy of the contemporary world, a world plagued by ever-increasing inequality, militarization, enmity, and terror, as well as by a resurgence of racist, fascist, and nationalist forces determined to exclude and kill. He outlines how democracy has begun to embrace its dark side, or what he calls its "nocturnal body," which is based on the desires, fears, affects, relations, and violence that drove colonialism. This shift has hollowed out democracy, thereby eroding the very values, rights, and freedoms liberal democracy routinely celebrates. As a result, war has become the sacrament of our times, in a conception of sovereignty that operates by annihilating all those considered to be enemies of the state. Despite his dire diagnosis, Mbembe draws on post-Foucault debates on biopolitics, war, and race, as well as Fanon's notion of care as a shared vulnerability, to explore how new conceptions of the human that transcend humanism might come to pass. These new conceptions would allow us to encounter the Other not as a thing to exclude, but as a person with whom to build a more just world.

## Amoral Communities

Collective Crimes in Time of War

**MILA DRAGOJEVIĆ**

October 2019 224pp 7 b&w halftones, 2 maps

9781501739828 £39.00 / \$45.00 HB

**CORNELL UNIVERSITY PRESS**

Dragojević examines how conditions conducive to atrocities against civilians are created during wartime in some communities. She identifies the exclusion of moderates and the production of borders as the main processes. In these places, political and ethnic identities become linked and targeted violence against civilians becomes both tolerated and justified by the respective authorities as a necessary sacrifice for a greater goal.

Judith Baer's provocative book, *Feminist Post-Liberalism*, refutes both conservative and radical critiques. To make her case, she rejects classical liberalism in favor of a welfare—and possibly socialist—post-liberalism that will prevent capitalism and a concentration of power that reinforces male supremacy. Together, feminism and liberalism can better elucidate controversies in American politics, law, and society.

**MARIA RYAN**

September 2019 344pp

9781503609990 £52.00 / \$60.00 HB

**STANFORD UNIVERSITY PRESS**

This is the first sustained historical examination of the secondary fronts in the War on Terror and the irregular strategies that have left a deeply ambiguous global legacy. It explores whether irregular warfare has been effective in creating global stability or if new terrorist groups have emerged in response to the intervention.

### Leadership Decapitation

Strategic Targeting of Terrorist Organizations

**JENNA JORDAN**

November 2019 320pp

9781503608245 £56.00 / \$65.00 HB

**STANFORD UNIVERSITY PRESS**

Jordan examines over a thousand instances of leadership targeting to identify the intended and unintended consequences of this strategy. As Jordan demonstrates, many factors play a role in determining how and why leadership decapitation succeeds or fails. Taking heed of these conditions is essential to an effective counterterrorism policy going forward.

### Violence and Militants

From Ottoman Rebellions to Jihadist Organizations
